GENERAL INFORMATION

Naval Dental Center Southwest (NDCSW) is located in Building 3230 onboard Naval Station San Diego. Directions to NDCSW: Take Interstate 5 South and exit on Main Street and National City Boulevard. Go straight through the intersection to Naval Station Gate #30. Turn right on Norman Scott Road. The Naval Dental Center (Building 3230) is the first building on the left-hand side. Vehicles without decals must obtain one at Pass and Decal Office, (619) 556-6218/1651, BLDG 128 on Harbor Drive between the hours of 0700-1630, Monday – Friday. Proof of insurance, car registration, current drivers license and military identification are **required** to obtain a pass. Parking is permitted in the main parking lot located in the front of Naval Dental Center Southwest on Craven Street. This lot is shared by multiple commands and fills up early. Parking in spaces designated for other commands or personnel is strictly prohibited.

ELIGIBILITY

Participation is open to active duty members of the Federal Dental Services, Reservists actively participating in the Reserve Program, and on a space available basis to all other personnel including civilians. Specific courses may have special limitations.

COURSE FEE

Active duty Department of Defense personnel (i.e. Navy, Army, Air Force) including active duty foreign (i.e. Canadian) and retired (Navy, Army, Air Force) will not be charged a course fee. Reservists serving on Active Duty for Training (ACDUTRA) while attending courses in military uniform will not be charged with proof of valid orders and identification card. **Civilian, Ready-Reservist, Reservist (not on ACDUTRA), Coast Guard, Contract Dentist and Public Health Service personnel will be charged a course fee.** Fee rates are \$50.00 per day, multiplied by the number of days of the course. The full course fee will apply to either full or partial attendance at the courses. Course fee will be collected during check-in procedures at the beginning of the course. Payment can be made by check to **U.S. Treasury**. Credit cards and cash are not accepted for payment. Fees are non-refundable.

APPLICATION

Applications must be submitted in a timely manner prior to each course to ensure availability of seat. **Applications are due NO LATER than seven (7) days prior to course convening date.** **Due to quota limitations, attendance is not guaranteed unless a confirmation letter has been received.**

Check-In Procedure:

All personnel are required to check in with Continuing Education at **0700 the first day of the course**. At that time, all TAD orders and course fees will be collected. Uniform for Navy: winter blue, summer white, service khaki or the appropriate seasonal service dress uniform. For other services: Appropriate service equivalent. For civilians: Appropriate business attire.

ORDERS

All orders should read as follows: "Reporting Instructions: Report to CO, NDC Southwest, 2310 Craven Street, Naval Base, San Diego, CA 92136-5596," and, "Government Messing Not Available" (**Officers Only**).

ANNUAL TRAINING/ACTIVE DUTY TRAINING, NAVAL RESERVE

All Naval Reserve officers and enlisted personnel desiring a quota in a course **MUST** submit the course application form contained in this brochure through their respective Readiness Commands (REDCOM). This application must be received prior to the application cut-off date to ensure availability of a seat for the course requested. Annual Training or Active Duty for Training orders should not be requested or processed until you have received written confirmation of a course quota. **Note: If you intend to combine a course with, or include it during, Annual Training, you must contact your respective REDCOM and the Reserve Liaison Office at Naval Dental Center Southwest, San Diego.** Approval from the Course Coordinator or Course Director, for a course, does not include approval for Annual Training. **Plan ahead.** The Reserve Liaison Officer or the assistant may be reached by calling DSN 526-8196, commercial (619) 556-8196.

CONTINUING EDUCATION CREDITS

Continuing Education Credits are given in accordance with the Academy of General Dentistry, the American Dental Association and the Dental Board of California. Full course credit cannot be given to early departees.

**The U.S. Navy is an American Dental Association
Continuing Education Recognition Program Recognized Provider**

ORAL SURGERY FOR THE GENERAL DENTIST

1-3 November 2004

Quota: 130

Course Data Processing Code:
887U-05010

Course Identification Number:
B-6C-1005

Director:

LCDR V. Pak, DC, USN

Staff Dentist, Oral Surgery Department, BDC Naval Station, San Diego, CA

Eligibility: Federal agency dentists, active and reserve. Non-federal agency dentists on a space available basis.

Course Description: This course is designed for the general practitioner and the exodontist who is interested in the latest advances in clinical outpatient oral surgery. Topics covered will include medical evaluation of the surgical patient, management of the medically compromised patient, treatment of medical emergencies in the dental operatory, basic and complicated exodontia technique, management of post-operative complications, recognition and treatment of odontogenic infection, antibiotic therapy, biopsy technique, diagnosis and treatment of facial fractures, management of facial soft tissue trauma, dental implants, extraoral/panoral radiography, overview of orthognathic surgery and the recognition of common oral pathoses.

Anticipated Learning Outcomes:

- Diagnose and treatment plan common oral surgical cases.
- Recognize the medically compromised patient and manage medical emergencies in the dental operatory.
- Recognize situations requiring referral to exodontists, oral and maxillofacial surgeons, or coordination with other specialties.

Continuing Education Credit: Max hrs. 21

NITROUS OXIDE/OXYGEN INHALATION SEDATION

6-7 December 2004

Quota: 30

Course Data Processing Code:
230U-05010

Course Identification Number:
B-6C-2000

Director:

LCDR V. Pak, DC, USN
Staff Dentist, Oral Surgery Department, BDC Naval Station, San Diego, CA

Eligibility: Active Duty only. Federal agency dentists on a space available basis.

Course Description: This course is designed for the dental officer who is interested in utilizing Nitrous Oxide and Oxygen Inhalation Sedation in her/his practice. Among the topics covered will be the pharmacology of nitrous oxide; advantages and disadvantages of its use; indications and contraindications; prevention, recognition, and management of complications; patient evaluation and risk assessment; airway management; physiologic monitoring of the patient; basic components and function of inhalation sedation equipment; and nitrous oxide and oxygen inhalation technique. The course meets the guidelines established by the ADA for teaching inhalation sedation with nitrous oxide.

Anticipated Learning Outcomes:

- Recognize the indications for the use of nitrous oxide sedation.
- Understand the pharmacology of nitrous oxide sedation.
- Safely administer nitrous oxide sedation to appropriate dental patients.
- Understand the environmental hazards and abuse issues related to nitrous oxide.

Continuing Education Credit: Max hrs. 14

OPERATIVE DENTISTRY

10-12 January 2005

Quota: 130

Course Data Processing Code:
887M-05010

Course Identification Number:
B-6C-1007

Director:

CDR J. Nordin, DC, USN

Board Certified, Academy of Operative Dentistry

Head, Operative/Preventive Dentistry Department, BDC Naval Station, San Diego, CA

Eligibility: Federal agency dentists, active and reserve. Non-federal agency dentists on a space available basis.

Course description: This course will review principles of operative dentistry with consideration of newer techniques and restorative materials. A philosophy of preventive/conservative dentistry as well as “Helpful Hints” providing alternative treatment modalities will be presented. The breadth of subjects in operative dentistry precludes all being covered over a three day period. Therefore, areas of current interest and suggestions from previous courses will be emphasized. Subjects planned for inclusion include: concepts in cariology, caries risk assessment, cavity preparations, treatment planning, and restorative dental materials.

A portion of time will be dedicated for the major dental companies to exhibit recent products and restorative materials.

Anticipated Learning Outcome:

- Appreciate the role of operative dentistry in the future of dental health care delivery.
- Integrate caries risk assessment and non-invasive treatment modalities with conventional restorative treatments.
- Introduce new techniques and materials into the daily practice of operative dentistry.

Continuing Education Credit: Max hrs. 21

DENTAL ADMINISTRATION FOR PETTY OFFICERS

24-26 January 2005

Quota: 12

Course Data Processing Code:
433G-05010

Course Identification Number:
B-331-0015

Director:

DTCS (FMF) J. Eastin, USN
Senior Enlisted Leader, Headquarters Administration, NDCSW

Eligibility: Active duty Navy Dental Technicians E4 – E5 Petty Officers (except for 8703).

Course Description: This course is designed to provide basic guidance for administrative procedures and LPO clinic supervision. The course will provide information on Correspondence Manual, Enlisted Evaluations, Career Counseling, Personal Awards, Standard Subject Identification Codes, Discipline, DENCAS, MEPRS and Dental Clinic Supervision.

Anticipated Learning Outcomes:

- Have a general understanding of various dental administrative procedures.
- Have knowledge of Navy Correspondence, Enlisted Performance Evaluations, and Personal Awards writing techniques.
- Identify the contents and maintenance requirements of official publications, know the Navy filing requirements and understand the recommended correspondence management practices.

ORAL MEDICINE AND ORAL PATHOLOGY

7-10 February 2005

Quota: 130

Course Data Processing Code:
877N-05010

Course Identification Number:
B-6C-1008

Directors:

CAPT R. Joralmon, DC, USN
Diplomate, American Board of Oral Medicine
Director, BDC Coronado, San Diego, CA

Eligibility: Federal agency dentists, active and reserve. Non-federal agency dentists on a space available basis.

Course Description: This course is designed to combine the disciplines of Oral Medicine and Oral Pathology in a meaningful and practical way. Emphasis will be given to recognition of hard and soft tissue lesions of the oral cavity. Additionally, systemic diseases and cutaneous disorders with oral manifestations will be discussed. Clinical presentation and histopathology will be correlated. Short clinicopathologic workshops with discussion periods will be utilized to help formulate differential diagnoses for various oral lesions.

Anticipated learning Outcomes:

- Develop a reasonable differential diagnosis for hard and soft tissue lesions.
- Correlate clinical features of disease with soft tissue and radiographic changes.
- Explain the significance of color, shape and texture in the diagnosis of a lesion.

Continuing Education Credit: Max hrs. 28

SAN DIEGO AREA DENTAL LABORATORY (ADL) WORKSHOP

21-23 February 2005

Quota: 80

Course Data Processing Code:
433F-05010

Course Identification Number:
B-331-0024

Director:

CDR C. Werking, DC, USN
Director, Area Dental Laboratory, San Diego, CA

Eligibility: Active duty Navy enlisted laboratory technicians who have completed formal Basic and Advanced Dental Laboratory “C” school and qualified civilian laboratory technicians employed by Navy dental laboratories.

Course Description: This course is designed to refresh and update the knowledge and skills of prosthetic laboratory technicians through exposure to current standards and advancements in dental laboratory technology. An ADL update, as well as safety and infection control will be addressed. Presentations will be in the form of lectures, demonstrations, hands-on training (limited availability and based upon skill level) and manufacturers’ exhibits. The National Board of Certification approves this course for continuing education credits awarded to Certified Dental Technicians (CDTs) and recognized graduates.

Anticipated learning outcomes:

- Exposure to current concepts, techniques, and materials in the field of dental laboratory technology.
- Familiarization of basic and advanced techniques through demonstrations and hands-on presentations.

Continuing Education Credit: refer to National Board of Certification for CDTs

ENDODONTICS

28 February-2 March 2005

Quota: 85

Course Data Processing Code:
887H-05010

Course Identification Number:
B-6C-1003

Director:

CDR C. M. Auld, DC, USN

Command Specialty Advisor for Endodontics

Head, Endodontics Department, BDC Naval Station, San Diego, CA

Eligibility: Federal agency dentists, active and reserve. Non-federal agency dentists on a space available basis.

Course Description: This course presents a review of the fundamental concepts of endodontics and introduces recent developments in the specialty. The lectures will include brief reviews of the research, which has led to current thinking in endodontics and will provide specific suggestions to improve clinical practice.

Anticipated learning outcomes:

- Diagnose and classify pulpal and periapical pathoses.
- Understand concepts and apply treatment for non-surgical endodontics, odontogenic infections, resorptive defects and iatrogenic perforation, endodontic retreatment, dental trauma, and restoration of endodontically treated teeth.
- Understand the concepts of and rationale for surgical root canal treatment.

Continuing Education Credit: Max hrs. 21

FIXED PROSTHODONTICS IN THE COMPREHENSIVE DENTAL PRACTICE

14-16 March 2005

Quota: 80

Course Data Processing Code:
887R-05010

Course Identification Number:
B-330-0010

Director:

LCDR S. Westock, DC, USN

Staff Dentist, Prosthodontic Department, BDC Naval Station, San Diego, CA

Eligibility: Federal agency dentists, active and reserve. Non-federal agency dentists on a space available basis.

Course Description: This course will provide a comprehensive review of the fundamental principles involved in diagnosis, treatment planning, and treatment of the fixed Prosthodontic patient. Fixed and implant Prosthodontics will be addressed, with the emphasis on treatment modalities within the scope of the general practitioner. A laboratory session in fixed Prosthodontics is planned.

Anticipated Learning Outcomes:

- Efficient techniques and materials that can make Fixed Prosthodontics more predictable.
- Treatment Planning Dental Implants in Fixed Prosthodontics. Can it be restored with an implant?
- Learn to recognize and better treat problematic periodontal situations associated with Fixed Prosthodontics. The issue is the tissue!
- Integrate essential elements of Fixed Prosthodontics into a comprehensive general dental practice.
- Treatment Planning Orthodontics into Fixed Prosthodontic cases.
- Know when to refer to a specialist.

Continuing Education Credit: Max hrs. 21

PREVENTIVE DENTISTRY FOR DENTAL TECHNICIANS

11-13 April 2005

Quota: 12

9-11 August 2005

Quota: 12

Course Data Processing Code:
877K-05010

Course Identification Number:
B-330-0013

Director:

CDR K. Sonnier, DC, USN

Staff Dentist, Periodontics Department, BDC Coronado, San Diego, CA

Eligibility: Active duty Navy dental technicians. All other federal agency dental technicians on a space available basis.

Course Description: This course is designed specifically for enlisted personnel actively working in preventive dentistry or periodontics departments. The course includes lectures, demonstrations, and clinical instruction working with patients in applications of preventive dentistry, such as performing supragingival calculus removal, oral prophylaxis procedures, plaque control instructions, fluoride treatments, and sealant application.

Anticipated Learning Outcomes:

- Perform dental prophylaxis procedures with increased confidence and effectiveness.
- Educate patients in preventive treatment and behavior.
- Understand the dental technician's role in implementation of the Navy Preventive Dentistry Program.
- Apply sealants to commence qualifications as a Navy sealant technician.

CASUALTY TREATMENT TRAINING FOR DENTAL OFFICERS

16-19 May 2005

Quota: 32

Course Data Processing Code:
875D-05010

Course Identification Number:
B-6C-6002

Director:

LCDR V. Pak, DC, USN
Staff Dentist, Oral Surgery Department, BDC Naval Station, San Diego, CA

Eligibility: U.S. Navy active duty with preference given to deploying personnel. Active duty/deployable reserves in other armed services are welcome on a space available basis.

Course Description: A team approach to trauma treatment with an emphasis on the principles of triage and advanced lifesaving techniques in an austere environment.

Anticipated Learning Outcomes:

- Understand and apply the principles of triage to mass casualty situations.
- Demonstrate the indications for, and techniques of, advanced lifesaving measures.
- Integrate skills into the dentist-dental technician team.
- Understand modifications of treatment and practice in the austere environment.
- Gain resources for additional study and development.

Continuing Education Credit: Max hrs. 28

CASUALTY TREATMENT TRAINING FOR DENTAL TECHNICIANS

16-19 May 2005

Quota: 32

Course Data Processing Code:
887J-05010

Course Identification Number:
B-330-0012

Director:

LCDR V. Pak, DC, USN
Staff Dentist, Oral Surgery Department, BDC Naval Station, San Diego, CA

Eligibility: Active duty Navy dental technicians and international military students only.

Course Description: This course is designed to update dental technicians' practical and didactic knowledge of basic casualty management. As a first responder to a combat or civil emergency situation, the dental technician must know how to assess patients, provide effective emergency care using minimum equipment, and to stabilize personnel for evacuation. This course applies practical application and procedures for field mass casualty management.

Anticipated Learning Outcomes:

- Become familiar with the dental technician's role in a contingency/operational setting.
- Outline the rapid trauma assessment surveys.
- Demonstrate effective resuscitative measures for patients with multiple life-threatening injuries, in priority sequence.
- Discuss the principles of triage, as they relate to emergency situations where the number or extent of casualties exceeds the resources and treatment capabilities.
- Demonstrate appropriate CBR warfare awareness.
- Demonstrate a sound practical knowledge by effectively operating in a mass casualty exercise with multiple injured patients, maintaining security, safety, and control of the scene.
